Key Point of Company service : -

- "**TIRUPATI HMS STAR 2022**" is a fully integrated, Hospital Information System Solution.

- **TIRUPATI HMS STAR 2022** gives a total integration of order entry systems, administrative system, and departmental subsystems within a hospital.

- **TIRUPATI HMS STAR 2022** allows for scalability, reliability, efficient data processing, quick decision making, reduced maintenance and overheads.

- **TIRUPATI HMS STAR 2022** data is stored in a single database providing real time data across applications throughout the hospital. Since all the data is stored centrally, it can be viewed simultaneously from multiple terminals giving all departments' access to timely, up-to-date patient information.

- **"TIRUPATI HMS STAR 2022"** offers a foolproof data security without user intervention to archive data.

- **TIRUPATI HMS STAR 2022** is a comprehensive information system dealing with all aspects of information processing in a hospital. This encompasses human (and paper-based) information processing as well as data processing machines.
As an area of Medical Informatics the aim of TIHS Plus is to achieve the best possible support of patient care and administration by electronic data processing
